

A milestone achieved.

Mass fever thermal scanners

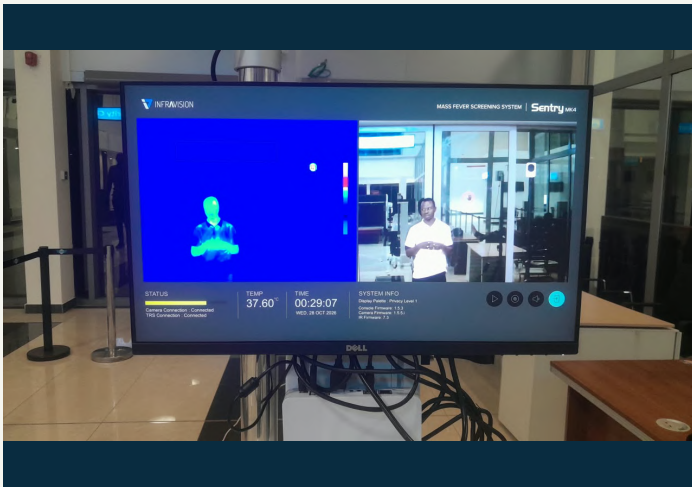

Juba International Airport, South Sudan

IOM-SPONSORED

Delivered by Health Haven Ltd

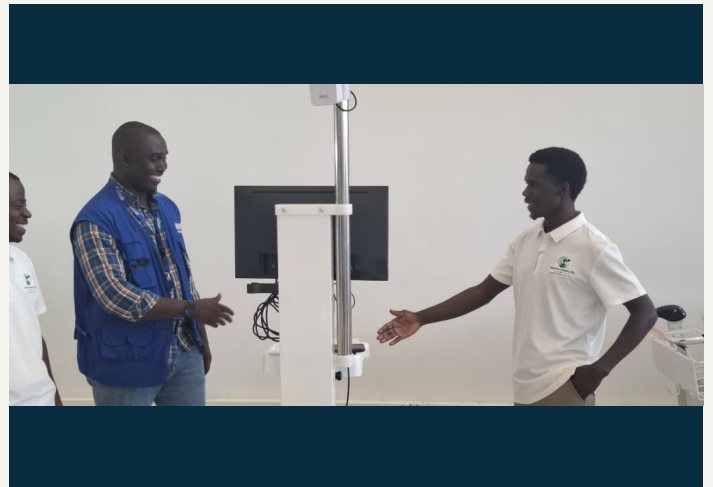

HEALTH HAVEN LTD
Global Standards. Local Impact

THE SYSTEM IN ACTION

Live thermal and visible-light screening at Juba International Airport.

A PARTNERSHIP WORTH CELEBRATING

IOM and Health Haven Ltd officers extend hands in a gesture of appreciation and partnership.

Shared purpose. Mutual appreciation. A milestone delivered together.

Celebrating collaboration and successful completion

01 INSTALLATION

STARTED | 27 OCT 2026

02 USER TRAINING

COMPLETED | 28 OCT 2026

03 COMMISSIONING

COMPLETED | 28 OCT 2026

Health Haven Ltd is proud to confirm that installation, user training and commissioning of the two mass fever thermal scanners at Juba International Airport were completed on, 28 October 2026. This IOM-sponsored achievement marks a joyful culmination of teamwork, perseverance and technical commitment.

WITH SINCERE APPRECIATION

We thank IOM leadership in South Sudan for their oversight, coordination and support in bringing this project to completion.

People. Partnership. Progress.

The scanners support Ebola prevention by flagging fever for prompt assessment and referral. Alongside exposure assessment and infection prevention measures, they strengthen border health surveillance. They do not diagnose Ebola or identify infection before fever develops.

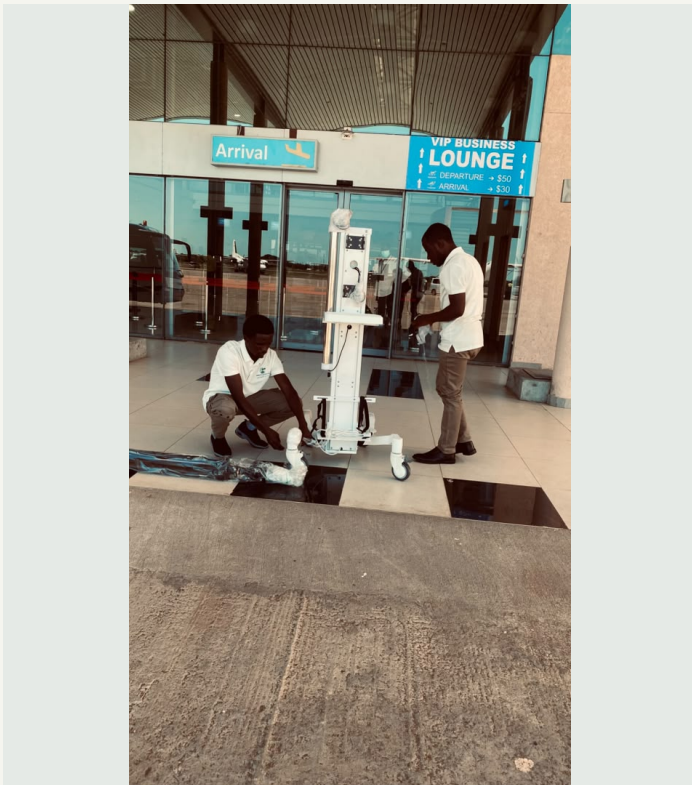

01 / A SHARED ACHIEVEMENT

Health Haven team members alongside an IOM colleague.

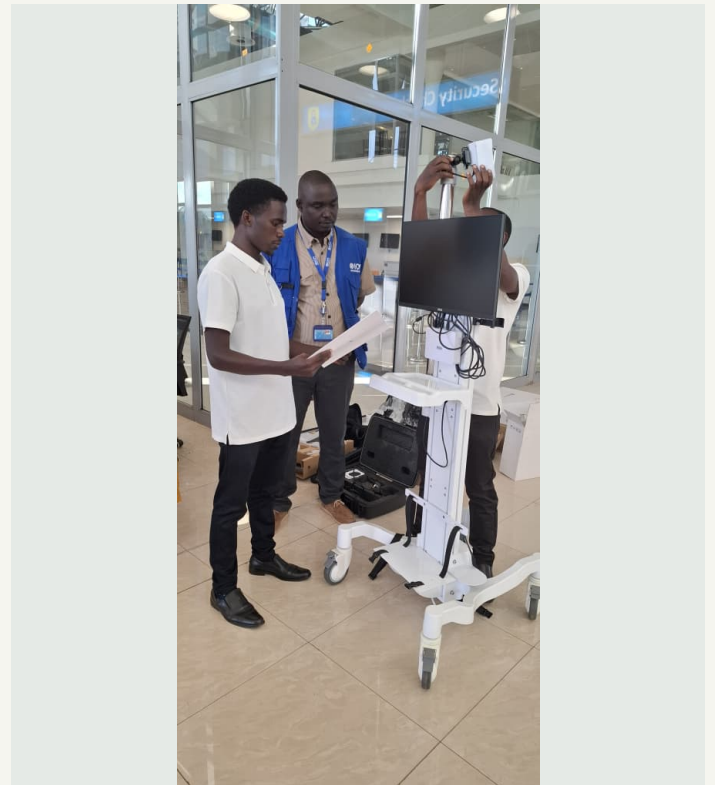

02 / WORKING TOGETHER

Technical installation work at the airport.

03 / ASSEMBLY AT ARRIVALS

Preparing and positioning the screening equipment.

04 / ATTENTION TO EVERY DETAIL

Hands-on camera assembly and team coordination.

“We celebrate this accomplishment with joy and pride.”

Our appreciation extends to the airport personnel, partners and Health Haven team, including Moses Asaba and Eng. Peter Walusimbi, whose dedication helped turn this shared commitment into a completed project.

Public health context: WHO, Ebola Event Management at Points of Entry; Ebola disease fact sheet.
